UNWILLING TO SPECULATE HEAVILY ON THE NEW YORK EXCHANGE.

Stock Market Closed Sluggish Slightly Lower Prices-Call Loans Easier-Local Trade Improving.

At New York, yesterday, money on call was easier at 21/4@31/4 per cent., the last loan being made at 21/2 per cent.

Prime mercantile paper, 414@5 per cent. Sterling exchange firm, with actual business in bankers' bills at \$4.87%@4.87% for demand and at \$4.84 for sixty days; posted rates, \$4.84% and \$4.88%; commercial bills,

Silver certificates, 60%@61%c; bar silver, 56%c; Mexican dollars, 47%c. At London bar silver closed steady at 27%d per ounce The uncertainties of the speculative situation were so great to-day that the operain stocks maintained a hesitating mood and refrained from active operations. Professional traders found it difficult to induce any following either for an advance or decline. The street was full of discussion regarding conditions in the iron trade, upon which the movement of stocks seemed to hinge. There were plenty of authorities who were willing to be quoted in op-Wire Company regarding the outlook in the trade. News of concessions in prices in some lines in the steel trade, however. haps, the result of the expression of those views. The conflict of opinions brought no definite conclusion either way, the whole speculative situation remaining unsettled. Prices in the general list started upward, encouraged by higher prices from London and under impulse of antagonism to the hear campaign, which is alleged to be at the bottom of the selling of iron and steel stocks. Speculators, however, lost confipressed over the iron trade outlook when manifesting acute decression. American Steel and Wire sold a point below last No. 3 white, 4; No. 3 yellow, 3; No. 2 mixed, 2

ing nearly a point higher and at a net loss When the renewed weakness of Steel and Wire was perceived the opening advance in the general list began to be conceded In one or two of the railroad stocks advances had reached over a point, but they were very generally wiped out. The market was extremely irregular for the rest of the day. The New York tractions and some of the other specialties showed acute weakness. There was a period of strength later in Sugar, General Electric and some of the railroad stocks, but these maneuvers failed to attract any feeling or to dissipate the feeling of uncertainty. Net changes are mostly small and the closing

steel stocks were not so weak. There

seemed a sort of speculative duel waging

in Steel and Wire and Federal Steel, the

latter stock crossing the former and clos-

was heavy and sluggish. The money market continued to work easier, call loans dropping to 21/2 per cent. in the late dealing. The subtreasury is disbursing large sums to the market, and New York exchange at Chicago rose to 10 cents discount to-day, compared with 40 cents discount on Monday, indicating a relaxation of interior demand for currency or perhaps a cessation of the selling of stocks for Chicago account. Sterling exchange continues to harden, and large loans are made on sterling collateral. This means that London is taking advantage of the lower interest rates here to borrow money in this market.

The bond market was rather quiet and irregular. Total sales, par value, \$1,830,000. United States new fours advanced 1/2 in the Following is a list of sales on the New York Stock Exchange yesterday, with the

BULGE IN CORN

HEAVY BUYING AT CHICAGO CAUSED AN ADVANCE OF 3-4c.

an upward influence and the weather furnishing a bearish outlook the wheat market to-day compromised by finishing the session merely steady, 1/3c under yesterday. Corn closed 1/20%c to %c higher, oats %c up, and provisions 21/2c to 71/2c depressed. The volume of the wheat business was not large. The opening was 1/6 4c under yesterday, May at 65%@66c, and July at 674@67%c. Cables were weak, and the rains, together with the prediction of rains, together with the prediction of milder weather soon, were regarded as excellent from the view point of a grain of wheat anxious to expand. Some cash business not a great deal—was done early and ness-not a great deal-was done early, and as corn showed a disposition to ascend the market firmed up a bit, May touching 66%c and July 671/2c. There was considerable long May put into the pit on the bulge, and there was some outside selling under the pressure, in which May declined to 651/2c and July to 66% @66%c. At this timeabout noon-the strength of corn was more apparent, and with the added assistance of a New York report of 35 loads taken for export the market slowly recovered and closed steady, %c down, May at 66c and July at 67%c. Local receipts were 24 cars, 3 of contract grade. Minneapolis and Duluth reported 187 cars, against 310 last week and 195 a year ago. Primary receipts were 309,000 bu, compared with 256,000 bu a year ago. Atlantic port clearances in wheat and flour were equal to 210,000 bu.

The corn market was fairly active and ing by influential interests, however, proved the main factor. Two men, between them, absorbed 2,000,000 bu, or were credited with so doing. Country offerings were light, as were receipts-199 cars here. The movement from now on is expected to be light, as farmers are busy in their fields. May ranged from 38%c to 39%@39%c, and closed 1/6 %c up at 391/6391/4c. July sold from 39%c to 40%@40%c, and closed %c up

at 401/sc. The oats market was dull and rather firm. There was not much selling pressure, and the corn strength was a help. Receipts here were 115 cars. May ranged from 231/2c to 231/2c, and closed 1/4c up at 231/2c; July rom 23c to 231/2c, with the close

4c improved at 23%c. The provisions market was quiet but steady at a slight decline from yesterday. Hogs were lower and receipts liberal There was a fair cash demand for lard May pork sold from \$13.05 to \$12.921/2, and closed 5c down at \$12.95; July from \$13.221/ to \$13.07, closing 5c down at \$13.05. May lard ranged from \$7.30 to \$7.25, and closed 5c lower at \$7.25; July from \$7.40 to \$7.30 closing 24c depressed at \$7.35. May ribs sold from \$7.20 to \$7.15, and closed 5@71/2c lower at \$7.15@7.17\(\frac{1}{2}\); July from \$7.20 to \$7.15, with the close 5@74c depressed at 87.15@7.1714

Cotton Reporter will say to-morrow: the large manufacturers have been in the market tic, both fleece and territory. They have pur chased a little more freely on medium pulltctal, however, considerably smaller than that of the previous week. But as the result of the oking around on the part of manufacturers and the taking of sample bags it is felt by the trade that an increased business is about to develop or is developing. We stated last week that downward tendency had been apparently ar rested, for the time being, at any rate, and the evelopments of the past week strengthen this view. What business has been done has been at very steady prices, which are quotable changed. The sales of the week in l amounted to 2,222,000 lbs domestic and 210,000 foreign, making a total of 2,432,000 lbs, against week last year. The sales since Jan. 1 amount to 49,853,900 lbs, against, 61,935,300 lbs for the corresponding time last year.

UNION STOCKYARDS, INDIANAPO-LIS, April 18.-Cattle-Receipts, 800; ship ments fair. The receipts of cattle continue comparatively liberal, the total for three days being 600 larger than the same time last week and over 900 larger than the corresponding time a year ago. The supply has become equal to the demand, and naturally there is a tendency toward a lower level in prices. After considerable hard work salesmen finally transferred their best steers at about steady prices to-day, but other kinds were generally weaker, and a plentiful supply of female cattle had to sell nearly 10c lower than yesterday. A good clearance was finally made at current prices. Quotations:

UNION STOCKYARDS, INDIANAPO-LIS, April 18.-There was a liberal supply of horses in the auction, a little less than 400 head having been received, against 300 the same time last week and an equal number the corresponding time a year ago. The quality generally was not improved compared with Tuesday and hardly as satisfactory as a week ago. All grades were represented, and with quite a good attendance of buyers and an active inquiry from all points the trading was brisk at prices current in the initial sale of the week. The demand continues especially good medium chunks and drivers suitable for the Eastern trade, and they are selling to the best advantage. Horses weighing 1,100 to 1,300 pounds sold at \$75 to \$125 and heavier grades at from \$100 to \$160. Drivers, according to speed, sold at from \$75 to \$175, and coach horses brought \$110 to \$200.

would it lake To acquaint the public with the results of an election or other important event without the aid of newspapers?

How long with such aid?

Is there any good reason why the dissemination of business information should not be governed by the same principles? Does not this explain why so many

derive profit from **NEWSPAPER** ADVERTISING?

Is there not a hint here for you?
